

Lemongrass Corporate Overview

SAP on AWS. We'll take you there.

Specialists on SAP on AWS

It's all we do. Lemongrass is a software enabled services provider, synonymous with SAP on AWS. Our mission is to help customers reduce costs, increase agility, improve service quality and accelerate innovation by migrating, operating and automating their SAP systems on AWS.

AWS Premier Partner and a Top SAP Partner Globally

We've worked closely with AWS since 2010 and are an AWS Partner Network Premier Consulting Partner and AWS accredited Managed Service Provider, as well as the second company globally to achieve AWS SAP Competency status, in recognition of the thousands of SAP systems that we have migrated with a 100% success rate.

Premier
Consulting
Partner

managed
service provider

We were the **FIRST** company in the world to migrate a full SAP production system to AWS, the **FIRST** company to migrate a client's SAP estate from HEC to AWS and, most recently, the **FIRST** AWS partner to launch a managed SAP offering that is integrated with AWS Managed Services (AMS).

170+

Users Supported

Highly Credentialed and Talented Team

A key differentiator for us versus other service providers in our space is our investment and focus on global talent. That's why Lemongrass is home to one of the largest dedicated, credentialed SAP on AWS teams in the world. With more than 677 partner certifications, the Lemongrass team are experts in implementing, migrating, operating and innovating SAP on the AWS Cloud. And to accommodate the schedules of our global Enterprise clients, our team operates in a single, ITIL-aligned, global follow-the-sun model.
