

Lemongrass Corporate Overview

Specialists on SAP on Cloud

Lemongrass is a software-enabled services provider, synonymous with SAP on Cloud, focused on delivering superior, highly automated Managed Services to Enterprise customers. With a unique combination of experience, expertise and best practices designed to deliver the desired outcomes from an SAP transformation, Lemongrass engineers strategies and services that enable the economics, scale and agility of hyperscale computing while unlocking business innovation and controlling the risks and uncertainties. Lemongrass Cloud Platform (LCP) enables near zero downtime migrations to Cloud and differentiated Managed Services for SAP and its related workloads. Our customers span multiple verticals and geographies across the Americas, EMEA and APAC and we partner with SAP, AWS, Microsoft, Google and other global technology leaders.

Highly Credentialed and Talented Team

A key differentiator for us versus other service providers in our space is our investment and focus on global talent. That's why Lemongrass is home to one of the largest dedicated, credentialed SAP on Cloud teams in the world. With more than 750 partner certifications, the Lemongrass team are experts in implementing, migrating, operating and innovating SAP on the Cloud. And to accommodate the schedules of our global Enterprise clients, our team operates in a single, ITIL-aligned, global follow-the-sun model.
