

Is Your SAP PI/PO Solution Ready for the Future?

The Clock is Ticking

With SAP PI/PO ending support in 2027, SAP customers will face challenges in maintaining their current integration systems. They need to plan to move to SAP Integration Suite or other modern solutions well before this deadline, which may require redesigning key business processes and integrations. This creates urgency to address skill gaps, ensure business continuity, and align with digital transformation goals. The end of support also increases the risk of security and compliance issues.

How Lemongrass Can Help

- **Future-Proof Integration:** SAP's R&D-backed Integration Suite provides secure, scalable tools to meet evolving integration needs
- **Clean Core Alignment:** Supports SAP's Clean Core methodology by reducing customizations and ensuring easier upgrades
- **Seamless Upgrades:** Simplifies adoption of SAP's continuous upgrade cycles, minimizing downtime and technical debt
- **Expert Guidance:** Tailored support and risk management, ensuring a smooth, successful migration to SAP BTP
- **Agile Transformation:** Accelerates transformation, reduces risk, and unlocks value by leveraging SAP's ongoing innovations

Why Act Now?

Stay Ahead: Transitioning from SAP PI/PO keeps your business aligned with SAP's latest technologies, including Intelligent Enterprise and cloud solutions.

Boost Efficiency: SAP Integration Suite offers faster, more flexible integration across on-premises, hybrid, and cloud applications.

Cost-Effective & Future-Proof: Migrating reduces maintenance costs and the risk of unsupported tech, while positioning your business to maximize ROI with emerging tools.

Seamless Integration: SAP's intelligent tools ensure a smooth, low-disruption migration process.

Lemongrass BTP PI/PO Services

With SAP BTP's powerful Integration Suite, we ensure a seamless transition by providing a flexible, scalable platform designed for integrating both SAP and non-SAP systems. We work alongside your team to map out a migration strategy that minimizes disruption, allowing legacy systems to continue operating smoothly throughout the process. Our services include:

- Comprehensive Assessment & Planning
- Seamless Integration Strategy
- Cloud-Ready, Scalable Solutions
- End-to-end strategy and support for your migration testing
- Ongoing support and optimization

Why SAP Customers Choose Lemongrass

Proven Expertise: A pioneer in SAP BTP with a strong record of successful implementations.

SAP Recognized Partner: Trusted SAP specialist with extensive BTP implementation experience.

End-to-End Service: Comprehensive implementation planning, execution, and ongoing managed services.

Secure your SAP future state with a strategic migration plan before 2027 to ensure your business will thrive in the new SAP ecosystem.
